## **Welcome, Parents, to Kensington After School Enrichment Program's Fall 2021 Session**

**KCC is excited to be back with our full schedule of in-person KASEP classes. We are continuing with our Covid-19 safety protocols and ensuring that our classrooms and equipment is cleaned and sanitized regularly. Our class sizes will remain small, usually 6-8 per class but some classes like gymnastics and Judo will be 12-14 per class. We will continue to follow the CDC and CC health guidelines and mask mandates and are requiring that all teachers and staff that work directly with children be vaccinated.**

**All Hilltop students, grades 1-6, walk themselves down the hill to attend KASEP classes. KCC staff will be at the flagpole in front of Hilltop School for the first two weeks of each session to help guide young or first time students to their KASEP classes.**

### **Kindergarten enrichment classes every day after school**

**KASEP kindergarten teachers pick up the kinder students directly from their school classroom and walk them to their KASEP classroom (just down the hill). Kindergartners must be signed out of their KASEP class by parent or guardian.**

***Kindergarten KASEP classes start at 1:30pm and end at 2:20pm  
Registration is Tuesday, August 31st at 7:00pm  
Classes begin Monday, September 13th***

Both a Martial Art and an International Sport, judo teaches controlling your opponent through throws and pins – there is no hitting or kicking. It is very safe and yet very effective. It is also one of the world's most popular sports, found at school physical education programs in Japan, France, Brazil and many other countries.

Every Hajime class finishes with games that develop physical coordination, balance and laughter. We sing in Japanese about inspiration and bow to each other respectfully. Then we say "arigato," thank you. Respect and discipline are as much a part of Hanabi as smiling.

Hanabi Judo: Friendship, Respect, Confidence! Hajime! (Begin!) establishes a strong base of judo technique, culture, and character. We start by learning to introduce ourselves in Japanese. Fun tumbling, jumping and running activities warm us up before we practice our ukemi or falling techniques: Hajime students learn to fall safely and effortlessly. Judo allows a smaller person to control an opponent bigger and stronger than themselves. We learn to hold a person down with “kesa-gatame” (scarf hold) and we practice throws – where our opponent can be flipped upside-down – on Sensei.

Both a Martial Art and an International Sport, judo teaches controlling your opponent through throws and pins – there is no hitting or kicking. It is very safe and yet very effective. It is also one of the world’s most popular sports, found at school physical education programs in Japan, France, Brazil and many other countries. Every Hajime class finishes with games that develop physical coordination, balance and laughter. We sing in Japanese about inspiration and bow to each other respectfully. Then we say "arigato," thank you.
